TRADE FAIRS INDIA (P) LTD.

Welcome to the Epicenter of Automotive Innovation!

Welcome to the Automotive Electronics & Testing Show! We are thrilled to open the doors to India's premier B2B platform dedicated to the smartest and safest technologies driving the next generation of mobility.

As vehicles become smarter and EV adoption accelerates, advanced electronics and flawless testing are the true engines of the industry. Starting today, top component manufacturers, tech innovators, and testing experts are coming face-to-face with leading OEMs and Tier-1 integrators under one roof.

This is where the future of automotive engineering is sourced, tested, and validated. Get ready to explore cutting-edge solutions, drive high-volume B2B sourcing, and build the supply chain partnerships that will define tomorrow's vehicles.

Welcome to the show. Let's engineer the future of drive together!

Why Exhibit?

Secure your space to showcase your innovations directly to a highly targeted, purchase-ready audience of automotive engineers and procurement leaders. This is your definitive opportunity to generate high-quality B2B leads, forge strategic partnerships, and dominate the market for next-gen automotive electronics and testing solutions.

Join 150+ participating companies showcasing the latest products & services across electronics systems and applications

Present your product to over 10,000+ Key customers, investors, policymakers, and industry

Archive remarkable brand exposure to a highly engaged target audience

Get valuable feedback on your services and solutions from experienced industry leaders and decision-makers

Engage with the local market leaders from the entire spectrum of Manufacturing

WHY PUNE?

- US \$547 billion Maharashtra's GDP in FY23-24
- India's largest state as per GDP & 4th Largest with 8% MSMES base (Growth of the Automotive Industry in India)
- US \$67.20 billion total export value of Maharashtra
- India's largest exporter with 15.4% of overall exports

Thriving Industrial Hub.

Automotive Capital of India

R&D centers of top notch OEMs.

Growing Market.

Supportive Government Policies.

India's Premier Showcase for Automotive Electronics & Motor Technology

Explore automotive electronics and motor technology at the ultimate B2B convergence platform driving the next generation of e-mobility. This premier exhibition brings together leading OEMs, component manufacturers, and tech innovators to showcase cutting-edge advancements in smart vehicle electronics, electric powertrains, and energy-efficient motor solutions. It serves as the definitive meeting ground for industry leaders to source next-gen components, forge strategic supply chain partnerships, and accelerate the future of automotive engineering.

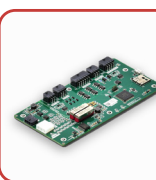

Exhibitor Profile

Semiconductors

E.V Charging

Battery Management Systems (B.M.S)

E.V Motors

Instrument Clusters

Infotainment System

Software & Simulation

ADAS & Autonomous Testing

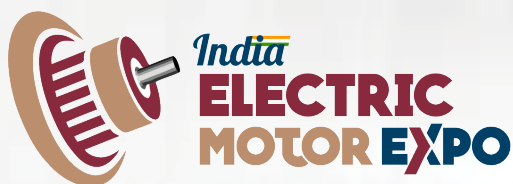

AI & IoT In Vehicle Electronics

VISITORS PROFILE

- Automotive OEMs
- Battery Management Systems Provider
- Piezoelectric Devices, Crystals & Resonators Fabricators
- Automotive Lighting Manufacturers
- Electric Vehicle Manufacturers
- OEM, ODM, ECM, EMS, etc.
- Industrial Electronics
- Automotive Industry
- Electric Vehicle Manufacturers
- EV Solution Provider
- LED/Lighting Manufacturing
- Terminals & Connectors
- Cable Assemblies
- Controls & Switchgear
- Mechanical Accessories
- Charger Manufacturers

Co- Located Shows

Strategically co-located with the Automotive Electronics & Testing Show, the India Electric Motor Expo delivers the ultimate convergence of mobility tech. This combined powerhouse event allows top automotive OEMs to source advanced electric powertrains, smart electronics, and testing protocols all under one roof.

Book Your Stand Space For **AETS 2026 Today!**

Indian Exhibitors

Raw Space – INR 12'800/ Sqm. (Above 21 Sqm)

Shell Space – INR 13'800/ Sqm. (9-21 Sqm)

International Exhibitors

Raw Space – USD 300/ Sqm. (Above 21 Sqm)

Shell Space – USD 320/ Sqm. (9-21 Sqm)

*18% GST extra
